I posted it and then sent you the message, so it's up.

Jen Ostermeier is back in the office today, so I'm turning things back over to her.

Thank you,

Karen

Hi Rita,

Thank you for catching that. The link now points to

Almost everything looks great, except the web link to How Lead Gets Into Drinking Water. That link takes you to lead in air, not drinking water. The proper link is: <https://www.epa.gov/ground-water-and-drinking-water/basic-information-about-lead-drinking-water>

We can fill in the FAQs later. Please take a look and let me know if there's anything needs changing on the characterization of the sample results.

The page about the pilot
